

### Definition of "Link"

Link: Observing from the first scroll in the left. If there is a pattern in the first scroll that is also shown in the second scroll, we call it a 2-links. So, starting from the left, if the pattern appears in the first, second, and the third scroll, then we call it a 3-links or 3-link. So, 4-links or 4-link for a pattern appearing simultaneously in the first, second, third, and the fourth scroll. Maximum would be 5-link or 5-links.

### Money God

1. This machine is a 5-scroll wheel single-player game which is made of 11 patterns including Wealth, Jinbao, Gaoxun, Nafu, Baoxi, Yuanbao, foo, A, K, Q, and J. It doesn't have internet connection function and can't be connected to the internet.

2. Main Game: The game initially fixes 5-reel, 60-point wheels. Players can choose to bet 1 to 10 times the number of points. The maximum total number of points bet is 600 points. Then, press the start button to start the game. When the wheel stops, the screen will show the combination of connection with flash and automatic scoring.

3. Multiplier Game: Getting a score in the main game, players can press the multiplier button to enter the multiplier game, and compare the size with the dealer's poker points. Players can choose one out of four cards, if the player's points are bigger than the dealer's points, the player can get 2 times the points and continue the game (maximum 5 times), but if the points are smaller, the points will be returned to zero and go back to the main game.

4. Free Games: When there are 3 "Yuanbao" icons appearing in a row from left to right in the main game, the player can enter the free game. Players are entitled to 8 free games. There are chances to get free play again during the free game. Players will be able to use up all the free play credits after the free game is over.

5. Scores are calculated as follows:

for Yuanbao, the score is: 3-links: 120 points;

for Wealth, the score is: 3-links: 30 points, 4-links: 75 points, 5-links: 300 points;

for Jinbao, the score is: 3-links: 25 points, 4-links: 50 points, 5-links: 200 points;

for Gaoxin, the score is: 3-links: 20 points, 4-links: 40 points, 5-links: 150 points;

for Nafu, the score is: 3-links: 15 points, 4-links: 30 points, 5-links: 125 points;

for Baoxi, the scores are: 3-link: 10 points, 4-link: 20 points, 5-link: 75 points;

for A, the scores are: 3-link: 5 points, 4-link: 10 points, 5-link: 20 points;  
for K, the scores are: 3-link: 5 points, 4-link: 10 points, 5-links: 20 points;  
for Q, the scores are: 3-link: 5 points, 4-link: 10 points, 5-links: 20 points;  
for J, the scores are: score: 3-link: 5 points, 4-link: 10 points, 5-link: 20 points.

6. Yuanbao: Three of them appearing at the same time can enter the free game.
7. Foo: Foo can be changed to any pattern to make a possible scoring combination, i.e., making links.

## Dragon world

1. This is a 5-scroll wheel single-player game. The patterns consist of Golden Dragon, Wooden Dragon, Water Dragon, Fire Dragon, Earth Dragon, Dragon Gate, Lucky Dragon, A, K, Q, and J.

2. Main Game: The game is a fixed 5-scroll game with 60 points, and the player can choose the betting multiplier from 1 to 10 times, and the maximum total bet is 600 points. Press the start button to start the game. When the wheel stops, the screen will show the combination of connection with flash and automatic scoring.

3. Multiplier Game: Getting a score in the main game, players can press the multiplier button to enter the multiplier game, and compare the size with the dealer's poker points. Players can choose one out of four cards, if the player's points are bigger than the dealer's points, the player can get 2 times the points and continue the game (maximum 5 times), but if the points are smaller, the points will be returned to zero and go back to the main game.

4. Free Games: When there are 3 "Dragon Gate" icons in the main game in a row from left to right, you can enter the free game. Players are entitled to 8 free games. The free game ends when all the free game times have been used.
